

Paper, cardboard and packaging solutions by POLO

Your Partner for Paper and Packaging Solutions
for almost 30 years!

Our Markets

Our customers and suppliers have an international team of more than 70 paper and packaging specialists at their disposal.

We are a leading sales and marketing partner for first-class paper and cardboard manufacturers and internationally renowned producers of packaging machines. We earned our leading position in numerous markets through a combination of almost 30 years of experience in the field of paper and packaging, a constant service commitment towards our customers, and a long standing international network of subsidiaries in Central and Eastern Europe.

POLO Handels AG was founded in 1986. Since that time the focus has been on the development of the paper and packaging division as well as on the packaging machinery division. Nowadays, our customers and suppliers have an international team of more than 70 paper and packaging specialists at their disposal.

Our biggest challenge lies in the expansion of our international marketing position while satisfying our customer demands for flexibility, reaction time, punctual delivery, quality and service criteria.
