

MUNKEN POLAR ID

Munken Polar ID is a special developed version for HP Indigo presses. The surface is developed for best performance, toner adhesion and print quality in liquid toner for this type of press.

In all other aspects the paper has the same characteristics as the normal Munken Polar with its smooth surface and its crispy white shade that enhances images, and has an exclusive, yet natural paper feel.

BASIC INFORMATION

Available in sheets. Optimized for colour printing

ENVIRONMENT / SAFETY

ECF, ISO 14001, EMAS, Paper Profile, Age resistant (ISO 9706), Woodfree, FSC_C020637, PEFC_053399

PRINTING TECHNIQUES

HP Indigo

SHADE

Highwhite

SURFACE

Uncoated, Smooth
